YETI ACADEMY

Your K12 Keyboarding, Coding & STEM Outfitter
YETI STEM COURSES

❄ Keyboarding

- **Yeti K-2 Keyboarding (K-2)**
  (Language Arts Based) Explore a delightful, grade-specific keyboarding journey for K-2 students, integrating mouse skills and language arts in engaging activities for a robust foundation in digital literacy and typing proficiency. *(Coming Soon)*

- **K-2 Mountain Adventure (K-2)**
  (Traditional) Like scaling K2, young learners climb to keyboarding heights with our engaging lessons, practice, and thrilling games, inspiring a digital literacy journey.

- **Yeti Keyboarding (3-12)** Students learn ergonomics, create muscle memory, and type grade-level specific content quickly and accurately.

👑 = *Yeti Premium Course*

❄ Coding

- **Space Code Jr. (K-2)** Block-based coding game where students learn sequencing, loops, and logic in a fun space environment.

- **Yeti Code Level 1 (2-4)** Students help the Yeti solve problems using basic Javascript language to learn loops, functions, parameters and more.

- **Yeti Code Level 2 (4-8)** 👑 Building on Yeti Code Level 1, Level 2 introduces more intermediate Javascript concepts such as conditional statements, nested loops and more complex algorithms.

❄ Digital Literacy

- **Pet Spa (3-5)** 👑 In Pet Spa, cute pets are key as students create artifacts and learn basic skills with Google Workspace applications.

- **Snowboard Shop (5-8)** Students use Google Workspace applications to construct artifacts and create graphic design components for their own Snowboard Shop.

- **Theme Park (8-12)** 👑 Students gain in-depth understanding of the Google Workspace applications while highlighting digital citizenship topics and transferable, real-life business skills.

❄ Digital Citizenship

- **Super Citizenship (3-5)** Digital citizenship concepts are brought to life with a series of exciting superhero videos, lessons to reinforce learning, and an illustrated scenario-based quiz.

- **Sports PR Agency (6-8)** 👑 "Working" in a Sports PR Agency, students develop positive, ISTE-aligned digital citizenship practices as they manage athletes and help them to understand the impact and etiquette surrounding digital influence.

❄ Science

- **Sports Med (6-9)** 👑 From cells to systems, this life science enrichment course introduces essential science concepts with a sports-centered flair.
